

GOVERNOR SINDH

MOHAMMAD ZUBAIR

MESSAGE

I feel delighted to see the higher education institutions making vital progress in imparting quality education with special focus on research and development. I am very confident that the future of Engineering and Information Technology in Pakistan is extremely bright, as Pakistan is embracing e-governance on a fast pace. It is highly encouraging that the Management at PIMSAT is endeavoring hard to impart high quality education towards this objective.

PIMSAT's newly built campus in Korangi is good news for the students of Sindh; I congratulate management of PIMSAT for opening this beautiful campus.

I admire the hard efforts of PIMSAT, blended with discipline and positivism that have brought good name to the institute.

I extend my gratitude and support in the quest of imparting higher education for all. I wish you every success in your academic endeavors and hope that you will excel and enhance the quality of services to students in the much needed disciplines of Engineering & Technology, Business Administration, Telecommunication and Information Technology.

(MOHAMMAD ZUBAIR)
GOVERNOR SINDH
